### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The instant claims are drawn to a method of coating ibuprofen particles with cellulosic polymers (Ghanta et al, Carli et al ). Though the general concept of coating is well known in the art, the prior art has not recognized the specific formulation of ethylcellulose, hydroxypropylmethylcellulose and silica in the particular concentration and ratios presented. These concentrations provide a superior taste masking and immediate release of the ibuprofen. Because of the specific composition of the mixture constituting the coating the particles allow for the taste masking of ibuprofen, reduced throat irritation effect of the throat, and the preservation of ibuprofen physical and chemical integrity of the ibuprofen. For these reasons the claims are novel over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
